## **Drainage and Floods**

The month of January was filled with various ups and downs...but none more than those affected for the floods. Our hearts go out to those families and we would like to emphasise the importance of proper drainage systems. The Rho-Struct systems are perfect for drainage systems and allow you peace of mind with its longevity and ease of installation. Rho-Tech has been on the forefront of installations during the floods that have occurred in KZN, with our pipes installed it will now prevent further damage in the future thereby saving more homes and create ease of mind. You will see images of Rho-Tech on site where floods have taken place and how our pipes improved the area.

## **Rho-Struct Pipe Solutions**

The solution to sewer and drainage problems is the RHO-STRUCT wall pipe for gravity sewer and storm water applications. The combination of virgin material properties and product technology provides a lightweight engineered pipe with superior capacity for various industrial applications.

## **SAPPMA**

The Mission of SAPPMA is to create absolute customer confidence in the Plastics Pipe Industry, thereby ensuring long term sustainability and dynamic growth in this all-important industry. SAPPMA is not in competition with any accredited certification organisation, but plays a crucial coordinating role between all stakeholders in this industry.
