Water Shortages

Due to the aging and inadequate water infrastructure in many parts of KZN we have experienced a huge water shortages. The Leaks, bursts and current shortages all fall back into the aging and inadequate water infrastructure. Moreover, insufficient investment in upgrading and maintaining infrastructure further compounds the problem. This is an eye opener to the importance of the changeover into HDPE piping. The lack of need to maintain the pipes and its increased logevity makes it the perfect solution to most of these issues.

Website Updates

If you are wondering what has happened to our website, do not panic we are simply updating information and making sure that the same amazing Rho-tech service will reflect through our site. You can still contact us via email or call us.

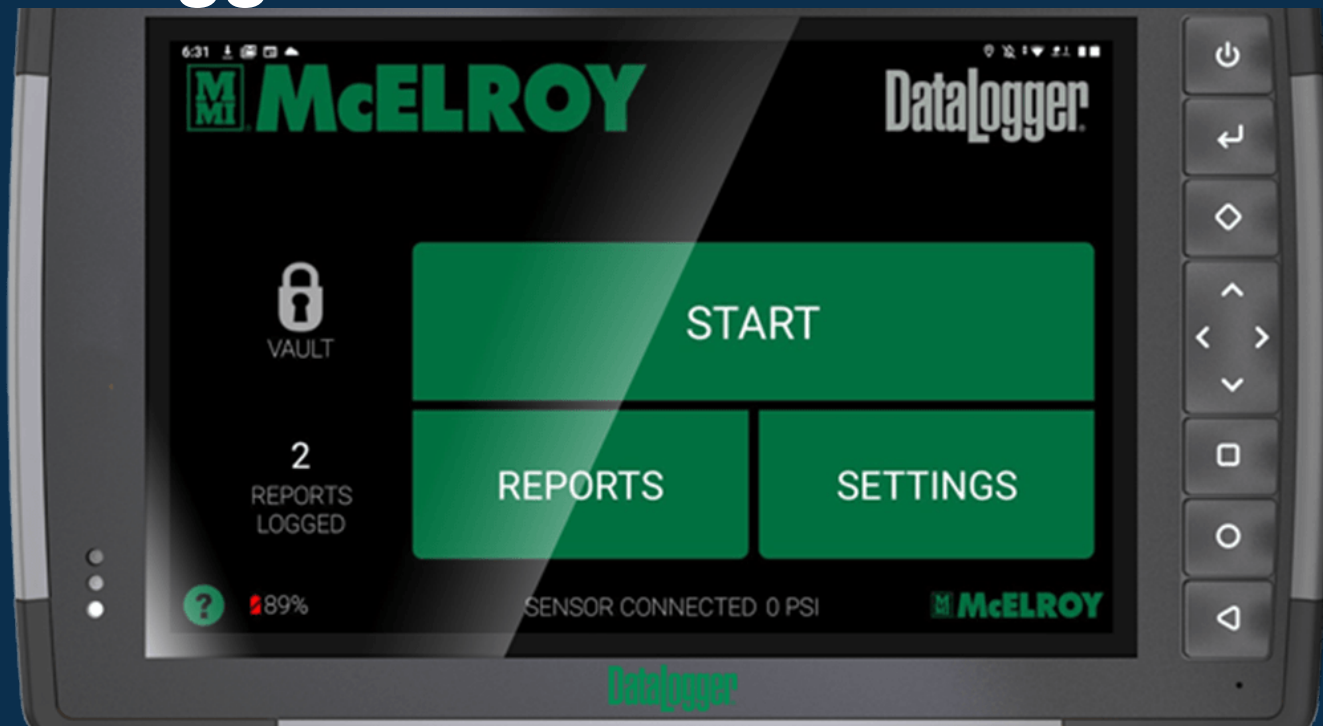

We are your friend in plastics.

Ready to purchase/rent a McElroy machine?

We are the McElroy Distributors in South Africa, which means we can assist with all your McElroy needs ... whether that is a brand new machine, a datalogger or ordering parts for your current McElroy machines.

Send us an email or call and we will assist you with a quote for your pipe welding needs.

DataLogger 7

IP68-RATED & MIL-STD-810 TESTED

The new DataLogger 7 tablet is built to be waterproof, dustproof and shockproof to stand up to the toughest jobsites. A 7" touchscreen offers great readability even in sunlight and can be used with gloves and in wet conditions.

CAPTURE MORE THAN JUST THE FUSION

The DataLogger allows documentation of manual fusion, electrofusion, squeeze-off techniques and pressure testing data. The device also saves precise GPS locations with each joint record from the entire job.
