#HeritageDay2024 #RepatriationAndLiberation #OurHistoryOurStoryOurHeritage | @GovernmentZA @GovernmentZA @GovernmentZA

**From Team Rho-Tech wishing everyone a happy and mindful Heritage month🔥:
"Celebrating Our Heritage, Honoring the Past, and Building the Future Together."**

Did You Know?.....

Its is an extremely simple yet sturdy solution to joining RHO-STRUCT pipes.

- First to ensure a smooth and secure connection inspect the pipe surface for any damage., If the pipe end is in good condition give it a thorough clean and mark it with a line 150mm from the end.
- Next, slide the rubber sleeve entirely onto one pipe end, then gently reposition it so that it's centrally aligned between the marks on both pipe ends.

Now, onto the coupling! Finger-tighten the bolts to hold everything in place, ensuring the coupling is nice and square. It's a straightforward process that keeps things snug and secure!

If you would like to enquire more please don't hesitate to call or email Rho-Tech for all your piping and installation needs

[McCalc® Fusion Pressure Calculator](#)

Rho-Tech can manufacture perforated and slotted pipe which is available in a number of industry standard sizes. HDPE perforated and slotted pipe is the material of choice for applications requiring water drainage, leachate systems, cable protection, ducting and landfill gas dissipation. If you would like to know more please contact us.

TracStar® 500 Series 3

All of the TracStars are self-contained with all of the necessary electrical equipment on board. The carriage is mounted on the track-driven chassis for easy pipe loading and movement. The carriage is also removable so that pipe can be fused on special applications in the ditch. With fusion capabilities of 160mm to 500mm HDPE pipe, there's a TracStar for a variety of pipe sizes.

ISO and SANS Compliance

At ISORHO-TECH, we conform to the **International Organisation for Standards (ISO)**, which promotes **quality, safety, and efficiency** globally, and the **South African Bureau of Standards**, which helps protect us from low-grade imports, we're committed to delivering the highest quality products.
