## Did you know.....

We are now providing a minimum **5-year warranty** on **all** pressure pipes manufactured by Rho-Tech.

Don't fret if you have specific requirements and warranties, you can call us or email us and we will get back to you with the same Rho-Tech service you know and love.

Our Manufacturing Team

## Rho-Struct HDPE Pipe

RHO-STRUCT pipe comes in a range of pipe sizes and ring stiffness's, depending on customer requirements. The combination of raw material properties and product technology provides a lightweight engineered pipe with superior capacity for various municipal, industrial, road-building, rehabilitation, marine and PE manholes applications. The Size range starts from 300mm - 1800mm ID

## Inside our Pipes

- Our company is committed to giving our clients quality piping that is sure to last years. All our pressure pipes are made 100% with virgin material, insuring longevity and little to no maintainance.
- 
- We are pleased to announce that Rho-Tech and its manufacturing processes consistently meet both local and international (ISO) standards. This ensures that every pipe leaving our factory maintains the same high level of integrity and design.

## The McElroy T900

TracStar fusion machines are the top choice on jobsites for fusing long pipelines, thanks to their exceptional manoeuvrability, efficiency, and ease of use. Equipped with self-propelled rubber crawler tracks, these vehicles can easily traverse rough terrain and handle grades of up to 30%
